

Stay safe this Halloween!

As we gear up for a spooky Halloween, let's make sure our construction zones are safe! Here are some spooktacular safety tips to keep our crews and community safe.

Rushing through construction zones could lead to a terrifying crash. Slow down and keep an eye out for our hardworking crews.

For our workers, a hard hat isn't part of a Halloween costume, it is the best defense against falling objects! Personal Protective Equipment (PPE) help our crews dress to stay safe.

Distractions can be ghostly! Avoid phone use while driving or walking near a construction zone and stay focused.

Halloween brings little ghouls and gremlins out for treats. Stay cautious while driving and be on the lookout for trick-or-treaters. Safety first, sweets later!

Let's keep our construction zones and roadways safe and sound this Halloween (and always). With a little extra caution, we can avoid crashes.

October is Pedestrian Safety Month

October isn't just about pumpkin spice and cozy sweaters—it has also been Pedestrian Safety Month! Here are some essential tips for drivers to help keep pedestrians safe every month of the year:

Stay Alert:
Always watch for pedestrians, especially in busy areas and near schools.

Observe Speed Limits:
Follow posted speed limits, particularly in residential neighborhoods and school zones. Slower speeds give you more time to react.

Be Cautious in Poor Weather:
Adjust your driving in inclement weather. Rain, fog, and snow can reduce visibility and increase stopping distances.

Construction Updates

Curious about what our 183 North Mobility Project crews have been up to this year? We invite you to explore our latest photo gallery updates, featuring aerial views of the newly opened fourth travel lane and the up-and-coming direct-connector road bridge.

These images highlight the progress being made in our community. Don't miss out on these visuals! Check out our photo collection to see how we're building for the future.

In the Community

KidStrong Trunk or Treat

On Saturday, October 19th, the 183 North Mobility Project Team joined families for KidStrong's Trunk or Treat event. This event provided a fun Halloween experience while allowing the project team to engage with the community and address questions. Our contractor, Great Hills Constructors, was also able to provide a generous donation that benefited KidStrong's foster children scholarship program. It was a day filled with candy, laughter, and a strong sense of community. Thank you to everyone who came together to make the event a success!

Anderson Mill Limited District Candy Crawl

On October 26th, the Anderson Mill Limited District hosted a Candy Crawl at their local community center. The team set up a booth for residents to ask questions and share their thoughts. After the candy-filled festivities, families gathered for an outdoor movie.

Both events were a tremendous success and helped strengthen ties within our community.

Upcoming Events

Come see us next at Rattan Fest on November 2nd. Our team is ready to engage with the community. This neighborhood festival is a great opportunity for residents to meet their neighbors and showcase their businesses. With a bounce house, games, food trucks, and live music, there's something for everyone.

Stay tuned for details on where we'll be next or visit our community outreach page for updates. Hope to see you down the road!

Progress By the Numbers

In this month's newsletter, we've put together a comprehensive breakdown of our Quarterly Construction Progress Report * – an inside look at the gears turning behind the scenes. Our commitment to transparency and accountability is a guiding force, and we are pleased to share the details with you.

Drilled Shafts
74.6%
Foundation elements utilizing deeply drilled holes

Bridge Columns
84.6%
Vertical components of a bridge structure

Drainage
49.1%

Bridge Caps
78.6%
Elements placed on top of bridge foundation elements known as piles

Pavement
64.5%

Retaining Walls
58.6%

As of October 2024, the 183 North Mobility Project contractor, Great Hills Constructors, has employed up to

272

team members to bring improvements to northwest Austin. More positions will be added in 2024!
