

# 183 North Mobility Project

INTRODUCING YOUR NEW **EXPRESS** CONNECTION

WHEN YOU  
*NEED IT...*

NOW IT'S  
*HERE.*

## Northbound 183 Express Lanes Now Open!

The northbound 183 Express Lanes, an integral connection between Austin and Cedar Park, are now open. A major step toward completion of the 183 North Mobility Project, this partial opening offers needed mobility improvements to Central Texans along US 183 between Burnet Road and SH 45 North.

These two express lanes offer a seamless connection northbound to Cedar Park and the 183A Toll Road, with limited entrances and exits to aid drivers in bypassing congestion along the non-tolled general-purpose lanes.

The northbound express lanes on US 183 have opened first but will be followed soon after by the northbound direct connector structure from the MoPac Express Lane to the 183 Express Lanes. The southbound express lanes and southbound connection to MoPac are anticipated to open within a few months of the opening of the northbound direction, but construction timelines are always subject to change.

Drivers are encouraged to slow down and watch for signage as you familiarize yourself with the new entrance and exit opportunities now available. Express lanes entrance and exit ramps are limited to aid drivers, transit, and emergency responders in bypassing congestion for those times that matter most.

## Express Takes

Key things to know as the northbound 183 Express Lanes open:

Drivers in the US 183 non-tolled general-purpose lanes will have access to the same entrance and exit ramps between US 183 and the frontage road as before, along with the added fourth non-tolled general-purpose lane between MoPac and SH 45, which opened in 2024.

Express lane toll pricing varies based on demand. The price drivers see on the sign before entering the lane is the price they will pay.

Drivers in the northbound 183 Express Lanes after the exit to SH 45 North/RM 620 will seamlessly merge on to the existing northbound 183A Toll.

Visit the project website for everything you need to know about the opening of the express lanes and getting the most out of the new and improved US 183.
